### Overview

The HP ProLiant DL380 G7 Server continues to deliver on its heritage of engineering excellence with increased flexibility and performance, enterprise-class uptime and HP Insight Control manageability, 2 socket Intel® Xeon® performance, and 2U density for a variety of applications.

#### Front View:

- 1. Quick removal access panel
- 2. First Intel Processor
- 3. Second Intel Processor
- 4. Eighteen slots: DDR3 Registered (RDIMM) or Unbuffered (UDIMM) memory
- 5. Hot-plug fans, full N+1 redundancy
- 6. Slim Optical Bay (SATA DVD-RW Optical Drive included on Performance models)
- 7. UID LED button
- 8. Health LED
- 9. Power On/Standby button and system power LED
- 10. USB connectors (2)
- 11. Video connector
- 12. Systems Insight Display

#### Rear View:

- 1. PCI slot 5
- 2. PCI slot 6
- 3. PCI slot 4
- 4. PCI slot 2
- 5. PCI slot 3
- 6. PCI slot 1
- 7. Power supply 2
- 8. Power supply 1
- 9. USB connectors (2)
- 10. Video connector
- 11. NIC 1 connector
- 12. NIC 2 connector
- 13. Mouse connector
- 14. Keyboard connector
- 15. Serial connector
- 16. iLO 3 NIC connector
- 17. NIC 3 connector
- 18. NIC 4 connector

### What's New

- Unique DL380 G7 CTO Configurable Chassis, with Intel® Xeon® X5698 (4.40GHz/2-core/12MB/130W), DDR3-1333, HT) Processor Performance Pack , with 1yr Warranty
- Support for new HP hard drives, UPS and NIC

### Standard Features

**NOTE:** For the Standard Features shipped in the "Factory Integrated Models", please see the "Configuration Information - Factory Integrated Models" section.

**Processor** One of the following depending on Model

#### Six-Core Processors

Intel® Xeon® X5690 (3.46GHz/6-core/12MB/130W), DDR3-1333, HT, Turbo 1/1/1/1/2/2) Processor Intel® Xeon® X5680 (3.33GHz/6-core/12MB/130W, DDR3-1333, HT, Turbo 1/1/1/1/2/2) Processor Intel® Xeon® X5675 (3.06GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processor Intel® Xeon® X5670 (2.93GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processor Intel® Xeon® X5660 (2.80GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processor Intel® Xeon® X5660 (2.80GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processor Intel® Xeon® X5650 (2.66GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processor Intel® Xeon® E5649 (2.53GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processor Intel® Xeon® E5649 (2.53GHz/6-core/12MB/80W, DDR3-1333, HT, Turbo 1/1/1/1/2/2) Processor Intel® Xeon® E5645 (2.40GHz/6-core/12MB/80W, DDR3-1333, HT, Turbo 1/1/1/1/2/2) Processor Intel® Xeon® E5645 (2.40GHz/6-core/12MB/80W, DDR3-1333, HT, Turbo 1/1/1/1/2/2) Processor

#### **Quad-Core Processors**

Intel® Xeon® X5687 (3.60GHz/4-core/12MB/130W, DDR3-1333, HT, Turbo 1/1/2/2) Processor Intel® Xeon® X5677 (3.46GHz/4-core/12MB/130W, DDR3-1333, HT, Turbo 1/1/2/2) Processor Intel® Xeon® X5672 (3.20GHz/4-core/12MB/95W, DDR3-1333, HT, Turbo 1/1/2/2) Processor Intel® Xeon® E5640 (2.66GHz/4-core/12MB/80W, DDR3-1066, HT, Turbo 1/1/2/2) Processor Intel® Xeon® E5630 (2.53GHz/4-core/12MB/80W, DDR3-1066, HT, Turbo 1/1/2/2) Processor Intel® Xeon® E5620 (2.40GHz/4-core/12MB/80W, DDR3-1066, HT, Turbo 1/1/2/2) Processor Intel® Xeon® E5620 (2.40GHz/4-core/12MB/80W, DDR3-1066, HT, Turbo 1/1/2/2) Processor Intel® Xeon® E5606 (2.13GHz/4-core/12MB/80W, DDR3-1066) Processor Intel® Xeon® E5603 (1.60GHz/4-core/4MB/80W, DDR3-1066) Processor Intel® Xeon® E5603 (2.13GHz/4-core/12MB/40W, DDR3-1066, HT, Turbo 1/1/2/2) Processor Intel® Xeon® E5603 (2.13GHz/4-core/12MB/80W, DDR3-1066) Processor Intel® Xeon® E5603 (2.13GHz/4-core/12MB/80W, DDR3-1066) Processor Intel® Xeon® E5603 (2.13GHz/4-core/12MB/80W, DDR3-1066) Processor

#### **Dual-Core Processors**

Intel® Xeon® E5503 (2.0GHz/2-core/4MB/80W), DDR3-800) Processor

**NOTE:** HT indicates that the processor model supports Intel® Hyper-Threading Technology. **NOTE:** Turbo indicates the maximum potential frequency increment when using Intel® Turbo Boost Technology, with 6, 5, 4, 3, 2, and 1 cores active.

**NOTE:** DDR3 speed is the maximum memory speed of the processor. Actual memory speed may depend on the quantity and type of DIMMs installed.

**NOTE:** For the Intel 5000, and 5600Series, the letter preceding the model number indicates the performance/wattage of the processor. "X" denotes High Performance/Wattage; "E" denotes Enterprise Performance/Wattage (Mainstream); and "L" denotes Lower Wattage.

**NOTE:** Up to 2 processors supported. Performance configurations include two processors. Mixing different processor models is not supported.

| Cache Memory                            | Up to 12MB (1x12MB) Level 3 cache for all 5600 series processors |
|---|--|
| One of the following depending on Model | Up to 8MB (1 x 8MB) Level 3 cache for all 5500 series processors |

Standard Features

3

#### Chipset Intel® 5520 Chipset NOTE: For more information regarding Intel chipsets, please see the following URL: http://www.intel.com/products/server/chipsets/. Upgradeability Upgradeable to 2 processors (12 cores) Memory Protection Advanced ECC (multi-bit error protection) Mirroring mode Online Spare supported on 5600 Series Lockstep mode DDR3 Registered (RDIMM) and Unbuffered (UDIMM) Memory Type Standard (Performance 12GB (6 x 2GB) PC3-10600R (DDR3-1333) Registered DIMMs Models) Standard (Base Models) 6GB (3 x 2GB) PC3-10600R (DDR3-1333) Registered DIMMs Standard (Entry Models) 4GB (2 x 2GB) PC3-10600R (DDR3-1333) Registered DIMMs Standard (Efficiency 4GB (2 x 2GB) PC3-10600E (DDR3-1333) Unbuffered DIMMS Models) Maximum (RDIMM) 384GB (12 x 32GB) for Registered Memory configurations NOTE: Using PC3-8500R DDR3 Registered (RDIMM) memory, operating at 800MHz when fully populated at 2 DIMMs per Channel in 12 slots. 48GB (12 x 2GB) for Unbuffered Memory configurations Maximum (UDIMM) NOTE: Using PC3-10600E DDR3 Unbuffered (UDIMM) memory, operating at 1066MHz when fully populated at 2 DIMMs per Channel in 12 slots. NOTE: If only one processor is installed, only half the DIMM slots are available NOTE: If only one processor is installed, only half the DIMM slots are available. NOTE: when populating with the 16GB Memory Kits (Quad-Rank), only 12 DIMMs can be populated. NOTE: For G6 and G7 servers using Xeon 5600 series processors, the default memory speed is 1333MHz with either one or two DIMMs per channel. For G6 and G7 servers using Xeon 5500 series processors, an RBSU option is available to disable 1333MHz operation (which will result in 1067MHz operation). NOTE: UDIMM support is only on 12-slot servers. NOTE: Depending on the memory configuration and processor model, the memory speed may run at 1333MHz, 1066MHz, or 800MHz. Please see the Online Memory Configuration Tool at: www.hp.com/go/ddr3memory-configurator. Network Controller Two HP NC382i Dual Port Multifunction Gigabit Server Adapters (four ports total) with TCP/IP Offload Engine, including support for Accelerated iSCSI

#### **Expansion Slots**

**NOTE:** The system board has 2 PCI connectors, but the below riser cards have the actual PCI slots, to which PCI cards attach. Up to six available PCI-Express Gen2 slots, optional mixed PCI-X / PCI-Express or x16 PCI configurations available (see "Standard Features -Expansion Slots" section for more details).

| Primary Riser | Expansion | Technology | Bus         | Connector       | Bus Number* | Form Factor | Notes |
|---------------|-----------|------------|-------------|-----------------|-------------|-------------|-------|

| Standard Features   |   |
|---|---|
| Server Power Cords  | High voltage power cord ships standard with all part numbers.<br>NOTE: HP ProLiant DL servers no longer ship standard with a 12-foot NEMA 5-15P to C13 power cords<br>(227099-001) that allow connection to 110V US wall outlets in a home or office. ProLiant DL servers<br>are primarily connected to PDU's in data center racks so they now ship standard with only a PDU 6-foot<br>C-14 to C13 power cord (142258-001). If a user wishes to power a ProLiant DL server using a 110V<br>receptacle (NEMA-15), the 12-foot NEMA 5-15 to C13 power cord (227099-001) must be ordered<br>separately. Also available: 110 volt 6-Foot NEMA 5-15p to C13 (AF556A).  |
| Common Slot Power<br>Supply   | Common Slot (CS) designates commonality of the power supply across multiple ProLiant servers. HP's new Common Slot power supplies are designed to provide the highest power supply efficiency without degrading the performance of a ProLiant. CS Power Supplies have efficiency ratings of up to 94% and are available in three power output options allowing the customer to "right-size" a power supply for their specific server configuration. To make sure you select the correct power supply to meet your configuration needs, we suggest that you use the HP Power Advisor to decide the "Right-Size" for your configuration. All HP Common Slot power sources are UL, CE Mark Compliant, hot-plug and support redundant configurations. |
|   | <b>NOTE:</b> Mixing of power supplies in the same server is not supported. All power supplies must be of the same output and efficiency rating. If non-matched power supplies are inserted you will get errors and operation will fail.   |
|   | It is highly recommended that you use the HP Power Advisor in defining the "Right-Size" power supply for your needs. HP Power Advisor can be accessed at: www.hp.com/go/hppoweradvisor.   |
|   | <b>NOTE:</b> The 80 PLUS program is a unique forum that unites electric utilities, the computer industry, and consumers in an effort to bring energy efficient technology solutions to the marketplace. 80 Plus independently tests power supply efficiency and publicly posts the results on 80Plus.org.   |
|   | Redundant Power: Optional (1 + 1 or n+n redundant) power supplies can be purchased through power supply option kits (see Power Supplies for part numbers).  |
| System Fans   | Fully redundant hot plug fans ship standard (N+1).<br>NOTE: One processor models include four fans. Two processor models include six fans.  |
| Required Cabling  | For required cabling information, refer to the HP Web site at: www.hp.com/servers/dl380.  |

### Standard Features

| Security | Power-on password<br>Keyboard password<br>QuickLock, Network Server Mode<br>Serial interface control<br>Administrator's password  |
|----------|---|
| Warranty | This product is covered by a global limited warranty and supported by HP Services and a worldwide<br>network of HP Authorized Channel Partners resellers. Hardware diagnostic support and repair is<br>available for three years from date of purchase. Support for software and initial setup is available for 90<br>days from date of purchase. Enhancements to warranty services are available through HP Care Pack<br>services or customized service agreements. Hard drives have either a one year or three year warranty;<br>refer to the specific hard drive QuickSpecs for details.<br>NOTE: Server Warranty includes 3-Year Parts, 3-Year Labor, 3-Year Onsite support with next business<br>day response. Warranty repairs may be accomplished through the use of Customer Self Repair (CSR)<br>parts. These parts fall into two categories: 1) Mandatory CSR parts are designed for easy replacement. A<br>travel and labor charge will result when customers decline to replace a Mandatory CSR part; 2)<br>Optional CSR parts are also designed for easy replacement but may involve added complexity.<br>Customers may choose to have HP replace Optional CSR parts at no charge. Additional information<br>regarding worldwide limited warranty and technical support is available at:<br>http://h18004.www1.hp.com/products/servers/platforms/warranty/index.html |

### Optional Features

| HP Insight management<br>software | HP Insight Control                  | HP Insight Control, a product option, delivers essential infrastructure<br>management that can help save time and money by making it easy to<br>deploy, migrate, monitor, remote control, and optimize your IT infrastructure<br>through a single, simple management console.  |
|-----------------------------------|-------------------------------------|--|
|                                   |                                     | Two versions of Insight Control are available, to serve environments requiring<br>either a Linux-based or a Windows-based central management server: HP<br>Insight Control for Linux, and HP Insight Control. See<br>www.hp.com/go/insightcontrol  |
|                                   |                                     | HP Insight Control includes one year of 24 x 7 HP Software Technical<br>Support and Update Service ensuring rapid access to HP support staff and<br>proactive delivery of software updates. For more information about this<br>service, please visit: http://www.hp.com/services/insight.  |
|                                   | HP Insight Dynamics for<br>ProLiant | HP Insight Dynamics for ProLiant, a product option, is advanced<br>infrastructure management software that enables IT staff to instantly adjust<br>their environments to meet dynamic business demands by provisioning,<br>optimizing and protecting complex infrastructure in minutes. It's a powerful<br>toolkit, integrated-by-design, that accelerates complex technology projects<br>and simplifies daily operations, transforming data center economics. With<br>Insight Dynamics IT professionals can plan capacity and power continuously,<br>balance workloads across physical and virtual resources, and ensure cost-<br>effective high availability. It also enables IT organizations to provision<br>infrastructure consistently and automatically from pools of shared resources<br>using a self-service portal. Resources provisioned can range from a single<br>virtual machine to complex multi-tier environments and their associated<br>physical and virtual resource requirements. In addition to the previous<br>functional benefits, it also provides a cost-effective disaster recovery for<br>physical and virtual environments that works with HP Continuous Access<br>software for both the Enterprise Virtual Array and the XP storage array<br>allowing application environments to be reactivated in minutes with the touch<br>of a button to a remote location. |
|                                   |                                     | NOTE: For more information, visit:<br>http://www.hp.com/go/insightdynamics   |

| Optional Features                                    |  |   |  |
|--|--|---|--|
| High Performance<br>Clusters                         | HP Cluster Platforms   | HP Cluster Platforms are specifically engineered, factory-integrated large-<br>scale ProLiant clusters optimized for High Performance Computing, with a<br>choice of servers, networks and software. Operating system options include<br>specially priced offerings for Red Hat Enterprise Linux and Novell SLES, as<br>well as Microsoft Windows HPC Server. A Cluster Platform Configurator<br>simplifies ordering. http://www.hp.com/go/clusters.  |  |
|  | HP HPC Interconnects   | High Performance Computing (HPC) interconnect technologies are available<br>for this server as part of the HP Cluster Platform portfolio. These high-speed<br>InfiniBand and Gigabit interconnects are fully supported by HP when<br>integrated within an HP cluster. Flexible, validated solutions can be defined<br>with the help of configuration tools.<br>http://www.hp.com/techservers/clusters/ucp/index.html  |  |
|  | HP Cluster Management<br>Utility   | HP Cluster Management Utility (CMU) is an HP-licensed and HP-supported<br>suite of tools that are used to manage large-scale Linux ProLiant systems.<br>CMU includes software for the centralized provisioning, management and<br>monitoring of nodes. CMU makes the administration of clusters user friendly,<br>efficient, and effective. http://www.hp.com/go/cmu  |  |
|  | HP HPC Linux Value Pack  | HP HPC Linux Value Pack (Value Pack) is an HP-licensed and HP-supported specially priced software bundle for the development and deployment of applications on HPC Cluster Platforms. Value Pack includes the Platform HPC Enterprise Edition suite of tools including the LSF workload scheduler, the HP-MPI parallelization library. Also included are the HP Unified Parallel C compiler and the HP Shmem library, as well as the execution environments for the libraries and compiler. HP HPC Linux Value Pack |  |
| Factory Express Portfolio<br>for Servers and Storage |  | configuration, customization, integration and deployment services for HP<br>cts. Customers can choose how their factory solutions are built, tested,<br>eployed.  |  |
|  | Factory Express offers service packages for simple configuration, racking, installation, complex configuration and design services as well as individual factory services, such as image loading, asset tagging, and custom packaging. HP products supported through Factory Express include a wide array of servers and storage: HP Integrity, HP ProLiant, HP ProLiant Server Blades, HP BladeSystem, HP 9000 servers as well as the MSAxxxx, EVA7xxx, EVA, XP, rackable tape libraries and configurable network switches. |   |  |
|  |  | actory Express services for your specific server model please contact your sales p://www.hp.com/go/factory-express.   |  |
| HP Enterprise<br>Configurator                        | portfolio. This approach is valued customers. If you re  | rise Configurator now provides factory default racking for our HP hardware<br>aligned with our strategic direction to meet the needs and expectations of our<br>equire "custom" rack configuration, please contact HP's Customer Business<br>artner for assistance. http://www.hp.com/products/configurator.  |  |

### Service and Support

### Service and Support HP Technology Services for Industry Standard Servers and BladeSystem Capitalizing on HP ProLiant server and HP BladeSystem capabilities requires a service partner who understands your increasingly complex business technology environment. That's why it makes sense to team up with the people who know HP infrastructure hardware and software best - the experienced professionals at HP Services. What HP ProLiant and BladeSystem Services can do for you HP ProLiant and BladeSystem Services can help you design, deploy, test, integrate, support, and manage IT and infrastructure solutions. This way, HP proposes services solutions that include more than just uplift of base warranty. You can get the support you need by choosing from one of a number of service packaged solutions we have designed to address wider set of customer support needs:. HP Technology Services meets business challenges with services offered in three packages - Optimized Care Package, Standard Care Package, and Basic Care Package - available for each product group. Such packaged solutions enable customers to optimize technology operations, minimize risk and drive better business outcomes with easy-to-buy, easy-to-use scalable support packages for servers, storage, networking and software. **Optimized** Care Optimized Care Package: Supports maintaining servers at optimum performance availability HP ProLiant Server Hardware Installation Provides for the basic hardware installation of HP branded servers, storage devices and networking options to assist you in bringing your new hardware into operation in a timely and professional manner http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-9356EN HP Installation and Startup for Insight Control Software Provides for the deployment and basic configuration of HP Insight Control on HP ProLiant ML and DL series servers or HP BladeSystem servers http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA0-9972ENW.pdf 3-Year HP Critical Advantage Provides end-to-end infrastructure support solution for business critical applications running on virtualized/x86 infrastructures, enabling the customers to cost effectively build, operate, and continuously improve their IT environment http://h20195.www2.hp.com/V2/GetDocument.aspx?docname=4AA3-1772ENW Additional Services: Microsoft or Linux or VMware education courses + Facility & technology environmental assessment services + Energy Efficiency Design, Factory Express

### Service and Support

Standard Care

#### Standard Care Package: Package that maintains high level of server availability

#### HP ProLiant Server Hardware Installation

Provides for the basic hardware installation of HP branded servers, storage devices and networking options to assist you in bringing your new hardware into operation in a timely and professional manner http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-9356EN

#### HP Installation and Startup for Insight Control Software

Provides for the deployment and basic configuration of HP Insight Control on HP ProLiant ML and DL series servers or HP BladeSystem servers http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA0-9972ENW.pdf

#### 3-Year HP 6 hour Hardware Support Onsite Call-to-Repair Service

Provides an IT manager with a team of support specialists who will quickly begin troubleshooting the system to help return the hardware to operating condition within 6 hours of the initial service request to the HP Global Solution Center

http://h20195.www2.hp.com/V2/GetPDF.aspx/5982-6547EN.pdf

#### 3-Year, HP 24x7 Software Support for Insight Control

Provides for the deployment and basic configuration of HP Insight Control on HP ProLiant ML and DL series servers or HP BladeSystem servers http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-6645EEE.pdf

Additional Services: Software OS (Microsoft, Linux (SUSE/Red Hat) & VMware Installation & Start Up, and Software Support; Install and Startup Services for Insight Control; Microsoft or Linux or VMware education courses; +30 Proactive Select Credits, Factory Express

**Basic Care** 

#### Basic Care Package: delivers minimum recommended support service level

#### HP ProLiant Server Hardware Installation

Provides for the basic hardware installation of HP branded servers, storage devices and networking options to assist you in bringing your new hardware into operation in a timely and professional manner http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-9356EN

#### HP Installation and Startup for Insight Control Software

Provides for the deployment and basic configuration of HP Insight Control on HP ProLiant ML and DL series servers or HP BladeSystem servers http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA0-9972ENW.pdf

#### 3-Year HP 24x7 4 hour Response, Hardware Support Onsite Service

Provides for the deployment and basic configuration of HP Insight Control on HP ProLiant ML and DL series servers or HP BladeSystem servers http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA0-9972ENW.pdf

#### 3-Year , HP 24x7 Software Support for Insight Control

Provides for the deployment and basic configuration of HP Insight Control on HP ProLiant ML and DL series servers or HP BladeSystem servers http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-6645EEE.pdf

Additional Services: Software OS (Microsoft, Linux (SUSE/Red Hat) & VMware Installation & Start Up

| Service and Support    |   |
|------------------------|---|
|                        | and Software Support); +10 Proactive Select Credits, Factory Express  |
| Insight Remote Support | The packages include HP Insight Remote Support that uses proven technology to deliver secure, reliable 24x7 remote monitoring, diagnoses, and problem resolution. It is available at no additional cost to all warranty, HP Care Pack Service, and service agreement customers. |
| For more information   | To learn more on HP ProLiant servers and HP BladeSystem servers, please contact your HP sales representative or HP Authorized Channel Partner. Or visit: http://www.hp.com/services/proliant  |

### Pre-configured Models

**NOTE:** For the Standard Features shipped in the "Factory Integrated Models", please see the "Configuration Information - Factory Integrated Models" section.

**NOTE:** Pre-configured models ship with the configurations below. Options can be selected from the Core or Additional options section of this QuickSpecs.

**NOTE:** HP does not allow factory integration of options into pre-configured models. Any additional options purchased will be shipped separately.

**NOTE:** If you desire a custom configuration please see "Configuration Information - Factory Integrated Models" section of this QuickSpecs.

NOTE: Not all models are available in all regions. Check with your local country HP offices for availability.

### **Performance Models**

### Configuration Information - Factory Integrated Models

NOTE: This section lists some of the steps required to configure a Factory Integrated Model. To ensure only valid configurations are ordered, HP recommends the use of an HP approved configurator. Contact your local sales representative for information on configurable product offerings and requirements.

NOTE: Configure-to-order (CTO) servers must start with a CTO Chassis.

NOTE: FIO indicates that this option is only available as a factory installable option.

### Step 1: Base Configuration (choose one of the following configurable models) HP ProLiant DL380 G7 SFF Configure-to-order Server

**HP** Models

#### Factory Integrated Model ships with:

Two HP NC382i Dual Port Multifunction Gigabit Server Adapters Smart Array P410i Controller I/O slots - 3 Slots come standard:

- Slot 1 FL/FH x8 PCIE (x16 connector)
- Slot 2 HL/FH x4 PCIE (x8 connector)
- Slot 3 HL/FH x4 PCIE (x8 connector)
  - Additional Slots may be added via selections from the PCI Information and Options subsection

System Fans - 4 (2 additional fans included with second processor)

Drive Cage - 8-SFF (Second SFF drive cage optional)

USB - 2 Rear, 2 Front, 1 Internal, 1 SD slot

Server Management - (iLO 3) (embedded)

NOTE: Power Supply not included - choose from Options section

HP ProLiant DL380 G7 SFF X5698 Configure-to-order Server

NOTE: specifically supports X5698 Processor Performance Pack (64344-B21), which is listed below in Section 3

NOTE: a 1 year Warranty applies to this solution

#### Factory Integrated Model ships with:

Two HP NC382i Dual Port Multifunction Gigabit Server Adapters Smart Array P410i Controller w/ 1G FBWC I/O slots - 6 Slots come standard:

- Slot 1 FL/FH x8 PCIE (x16 connector)
- Slot 2 HL/FH x4 PCIE (x8 connector)
- Slot 3 HL/FH x4 PCIE (x8 connector)
- Slot 4 FL/FH x8 PCIE (x16 connector)
- Slot 5 HL/FH x4 PCIE (x8 connector)
- Slot 6 HL/FH x4 PCIE (x8 connector)

System Fans - 6 USB - 2 Rear, 2 Front, 1 Internal, 1 SD slot Server Management - (iLO 3) (embedded)

#### NOTE: Memory, HD options, PCI Cards options can be added as desired from below Sections 2, 3, 4

HP ProLiant DL380 G7 LFF Configure-to-order Server

#### Factory Integrated Model ships with:

Two HP NC382i Dual Port Multifunction Gigabit Server Adapters

660492-B21

583914-B21

583917-B21

### Configuration Information - Factory Integrated Models

Smart Array P410i Controller I/O slots - 3 Slots come standard:

- Slot 1 FL/FH x8 PCIE (x16 connector)
- Slot 2 HL/FH x4 PCIE (x8 connector)
- Slot 3 HL/FH x4 PCIE (x8 connector)
  - Additional Slots may be added via selections from the PCI Information and Options subsection

Drive Cage - 6-LFF System Fans - 4 (2 additional fans included with second processor) USB - 2 Rear, 2 Front, 1 Internal, 1 SD slot Server Management - (iLO 3) (embedded) NOTE: Power Supply not included - choose from Options section NOTE: On LFF Model Optional Optical Drive is not available

### Step 2: Choose Required Options (only one of the following from each list unless otherwise noted)

| NOTE: If HP ProLiant DL380 G7 SFF X5698 Configure-to-order Server (PN 660492-<br>B21) is selected in Step 1 above, then you MUST select PN 643411-B21 instead of an<br>xxxxx-L21 HP Processor listed below.<br>HP DL380 G7 X5698 HPM FIO Performance Pack<br>NOTE: Must be ordered with 660492-B21 Chassis in Section 1. | 643411-B21   |
|--|--|
| <ul> <li>Qty 2 Intel® Xeon® E5698 (4.4GHz/2-core/12MB/130W Processors</li> <li>1G FBWC</li> <li>Qty 2 750w Power Supplies</li> <li>ATA DVD RW</li> </ul>   |  |
| NOTE: If two processors are desired, select one xxxxx-L21 and one xxxxx-B21 unless<br>Performance Model features are desired. Then choose one xxxxx-L21 and the<br>corresponding HP Performance Pack from Step 3 below.  |  |
| Six-Core Processors  |  |
| HP DL380 G7 Intel® Xeon® X5690 (3.46GHz/6-core/12MB/130W) FIO Processor<br>Kit   | 633410-L21   |
| HP DL380 G7 Intel® Xeon® X5680 (3.33GHz/6-core/12MB/130W) FIO Processor<br>Kit   | 587498-L21   |
| HP DL380 G7 Intel® Xeon® X5675 (3.06GHz/6-core/12MB/95W) FIO Processor<br>Kit  | 633414-L21   |
| HP DL380 G7 Intel® Xeon® X5670 (2.93GHz/6-core/12MB/95W) FIO Processor<br>Kit  | 587493-L21   |
| HP DL380 G7 Intel® Xeon® X5660 (2.80GHz/6-core/12MB/95W) FIO Processor<br>Kit  | 587491-L21   |
| HP DL380 G7 Intel® Xeon® X5650 (2.66GHz/6-core/12MB/95W) FIO Processor<br>Kit  | 587482-L21   |
| HP DL380 G7 Intel® Xeon® E5649 (2.53GHz/6-core/12MB/80W) FIO Processor<br>Kit  | 633418-L21   |
|  | <ul> <li>B21) is selected in Step 1 above, then you MUST select PN 643411-B21 instead of an xxxxx-L21 HP Processor listed below.</li> <li>HP DL380 G7 X5698 HPM FIO Performance Pack</li> <li>NOTE: Must be ordered with 660492-B21 Chassis in Section 1.</li> <li>NOTE: Performance Pack includes the following components: <ul> <li>Qty 2 Intel® Xeon® E5698 (4.4GHz/2-core/12MB/130W Processors</li> <li>I G FBWC</li> <li>Qty 2 750w Power Supplies</li> <li>ATA DVD RW</li> </ul> </li> <li>NOTE: If two processors are desired, select one xxxxx-L21 and one xxxxx-B21 unless Performance Model features are desired. |                | NOTE: It is mandatory to use a shock pallet when shipping racks with equipment installed.  |        |
|                | NOTE: Please see the QuickSpecs for Technical Specifications and additional<br>information:  |        |
|                | http://h18000.www1.hp.com/products/quickspecs/12402_div/12402_div.html<br>(Worldwide)  |        |
|                | NOTE: For additional information regarding Rack Cabinets, please see the following URL: http://www.hp.com/go/rackandpower.   |        |
|                | <b>NOTE:</b> The increasing power of new high-performance processor technology requires increased cooling efficiency for rack-mounted servers. The 10000 G2 Series Racks provide enhanced airflow for maximum cooling, allowing these racks to be fully loaded with servers using the latest processors. |        |
|                | <b>CAUTION:</b> If a third-party rack is used, observe the following additional requirements to ensure adequate airflow and to prevent damage to the equipment: Front and rear doors: If your 42U server rack includes closing front and rear doors, you must allow                                      |        |
|                | 830 square inches (5,350 sq cm) of hole evenly distributed from top to bottom to<br>permit adequate airflow (equivalent to the required 64 percent open area for<br>ventilation). Side: The clearance between the installed rack component and the side  |        |
|                | panels of the rack must be a minimum of 2.75 inches (7 cm).  |        |
|                | <b>CAUTION:</b> Always use blanking panels to fill all remaining empty front panel U-<br>spaces in the rack. This arrangement ensures proper airflow. Using a rack without<br>blanking panels results in improper cooling that can lead to thermal damage.   |        |
|                | NOTE: Quick deploy rail system provides tool-free support for racks with square or round mounting holes (including Compaq/HP 7000, 9000, 10000 G2 and HP   |        |
|                | series), with an adjustment range of 24" - 36". The ambidextrous cable management arm can be mounted on either the left or right side for improved cable management.   |        |
|                | NOTE: High Airflow Inserts (High Air Flow Rack Door Insert for the 7142 Rack (single)<br>- PN: 327281-B21; or High Air Flow Rack Door Insert for the 7142 Rack (6-pack) -  |        |
|                | PN: 327281-B22) are required to support the HP ProLiant DL380 in 7000 series racks. The DL380 Cable Management Arm is not supported on 7000 series racks.  |        |
|                | <b>NOTE:</b> Cable management arm must be removed to access hot-plug power supplies when the cable management arm is mounted on the right.   |        |

### Memory

### NOTE: Memory configurations listed do not apply to "Factory Integrated Models".

### DDR3 memory population guidelines

For detailed memory configuration rules and guidelines, please use the Online DDR3 Memory Configuration Tool: www.hp.com/go/ddr3memory-configurator

Some DIMM installation guidelines are summarized below:

- For servers with eighteen (18) memory slots:
  - O There are three (3) channels per processor; six (6) channels per server
  - O There are three (3) DIMM slots for each memory channel; eighteen (18) total slots
  - O Memory channel 1 consists of the three (3) DIMMs that are closest to the processor
  - O Memory channel 3 consists of the three (3) DIMMs that are furthest from the processor
- DIMM slots that are white should be populated first
- Do not mix Unbuffered memory (UDIMMs) with Registered memory (RDIMMs)
- Do not install DIMMs if the corresponding processor is not installed
- If only one processor is installed in a 2CPU system, only half of the DIMM slots are available
- To maximize performance, balance the total memory capacity between all installed processors
- It is not required, but it is recommended to load the channels similarly if possible
- If any Quad rank DIMMs are installed, all channels are limited to only 2 DIMMs per channel.
- You can only install two quad-rank DIMMs per channel
- You can only install two UDIMMs per channel; if available, the third slot in the channel must remain empty
- Populate DIMMs from heaviest load (quad-rank) to lightest load (single-rank) within a channel
- Heaviest load (DIMM with most ranks) within a channel goes furthest from the chipset
- For memory mirroring mode, channel 3 must be unpopulated. Channels 1 and 2 are populated identically
- For lock-step mode, channel 3 must be unpopulated. DIMMs in channels 1 and 2 will be installed in pairs. The paired slots will be 1,4; 2,5; 3;6 on a 3DPC system or 1,4; 2,5; on a 2DPC system
- If mixing DIMM voltage is a requirement, please note that the DIMMs will run at 1.5V since all 1.35V are capable of supporting 1.5V operations

| DIMM slot/capacity/populated speed table |                        |         |          |        |                      |                |      |      |                        |         |                                       |      |

| 3 DIMM Per Channel                                | 800**                               | 800** | 800  | 800  | 800** | 800** | n/a | n/a | n/a | n/a  | n/a  | n/a  |
| * 2DPC: LV runs at 1066, Std voltage runs at 1333 |                                     |       |      |      |       |       |     |     |     |      |      |      |
| ** 3DPC: LV/Std volta                             | ** 3DPC: LV/Std voltage runs at 800 |       |      |      |       |       |     |     |     |      |      |      |

#### NOTES:

- Mixing DIMM speeds is allowed, but the system processor speed rules always override the DIMM capabilities
- If you do mix DIMM speeds, the memory bus will default to the minimum clock rate of all DIMMs in the system even if the slower DIMM is on the other processor
- If you install 1x 1066MHz DIMM in channel 1 and 1x 1333MHz DIMM in channel 2, you still run at 1066MHz
- If you install 1x 1066MHz DIMM in channel 1 and 5x 1333MHz DIMMs with 1 DIMM Per Channel (DPC) in each of the other channels, you run at 1066MHz
- If you install 3DPC in one channel (if applicable) and 1DPC in all other channels, you run at 800MHz
- References to the above MHz speeds are for the various speeds of DDR3 DIMMs; 1333 refers to DDR3-1333, etc.

#### DIMM slot and configuration diagrams Basic memory slot & population diagram

• Population order; start with "A" first, "B" second, "C" third, etc.

### Hard Drives

NOTE: The components of a storage subsystem (e.g. the drive, the HBA/controller, firmware, and the server backplane) should operate at the same data transfer rate or the system bandwidth will be negotiated down to an acceptable level for all components. NOTE: Hard drives have either a one year or three year warranty; refer to the specific hard drive QuickSpecs for details.
